The Last Gun

How Changes in the Gun Industry Are Killing Americans and What It Will Take to Stop It

TOM DIAZ

FROM THE INFLUENTIAL GUN CONTROL ADVOCATE AND AUTHOR, A STARTLING NEW ANALYSIS OF GUNS AND GUN VIOLENCE—IN A BOOK THAT SHOWS THE PATH TO A SAFER FUTURE

In his eminently readable style, mixing science and anecdote, Diaz shows how our leaders have created gun policies that are good for the gun industry but horrific for our nation. He also describes solutions worthy of the name. What a timely book!

—DAVID HEMENWAY, PROFESSOR OF HEALTH POLICY, HARVARD SCHOOL OF PUBLIC HEALTH

Newtown, Connecticut. Aurora, Colorado. Both have entered our collective memory as sites of unimaginable heartbreak and mass slaughter perpetrated by lone gunmen. Meanwhile, cities such as Chicago and Washington, D.C., are dealing with the painful, everyday reality of record rates of gun-related deaths. By any account, gun violence in the United States has reached epidemic proportions.

A widely respected activist and policy analyst—as well as a former gun enthusiast and an ex-member of the National Rifle Association—Tom Diaz presents a chilling, up-to-date survey of the changed landscape of gun manufacturing and marketing. *The Last Gun* explores how the gun industry and the nature of gun violence have changed, including the disturbing rise in military-grade gun models. But Diaz also argues that the once formidable gun lobby has become a “paper tiger,” marshaling a range of evidence and case studies to make the case that *now* is the time for a renewed political effort to attack gun violence at its source—the guns themselves.

In the aftermath of Newtown, a challenging national conversation lies ahead. *The Last Gun* is an indispensable guide to this debate, and essential reading for anyone who wants to understand how we can finally rid America’s streets, schools, and homes of gun violence and prevent future Newtowns.

Tom Diaz is a writer, lawyer, and public speaker on the gun industry and gun control. Formerly senior policy analyst at the Violence Policy Center, he has been featured on MSNBC, NPR, and other national media. His books include Making a Killing (The New Press). He lives in Washington, D.C.

Diaz once again reveals what the firearms-industrial complex doesn’t want the public to know, while refusing to spare politicians and the media for their complicity in the cover-up. . . . This book should be required reading for policy makers at every level and for every American fed up with the massacre of 30,000 people a year.

—ANDREW FOIS, DEPUTY ATTORNEY GENERAL, PUBLIC SAFETY DIVISION, WASHINGTON, D.C.

Through a gripping narrative that combines plenty of factual data with compelling storytelling, Diaz makes the convincing case that the gun industry is knowingly trading American lives for profits. . . . After the tragedy of Newtown, if you are going to read one book to understand the current political fight in Washington, this is it.

Weaves together thirty years of declassified documents with a gripping narrative.

—THE NEW YORKER

Revised and updated for the fortieth anniversary of Augusto Pinochet's September 11, 1973, military coup in Chile, *The Pinochet File* reveals a formerly secret record of complicity with atrocity on the part of the U.S. government. Documents that were first made publicly available in the original hardcover edition formed the heart of the international campaign to hold Pinochet accountable for murder, torture, and terrorism—a campaign chronicled for the first time in this updated edition.

Peter Kornbluh spearheaded the effort to declassify some 24,000 secret CIA, White House, National Security Council, and Defense Department records on Chile, and when *The Pinochet File* was first published in 2003, Marc Cooper wrote in the *Los Angeles Times*, "Thanks to Peter Kornbluh, we have the first complete, almost day-to-day and fully documented record of this sordid chapter in Cold War American history." With the publication of this edition, that record becomes even more complete.

This book now includes the story of Pinochet's 2004 indictment and trial, as well as new information about the famous cases of the American Charles Horman and Chilean folk singer Victor Jara—both executed by Pinochet's military after the coup. The new afterword also tells the story of *The Pinochet File* itself: Henry Kissinger's attempt to undercut the book's reception generated a major scandal that led to high-level resignations at the Council on Foreign Relations, illustrating the continued ability of the book to speak truth to power.

Peter Kornbluh directs the Chile Documentation Project and the Cuba Documentation Project at the National Security Archive. He is a co-author of The Iran-Contra Scandal (The New Press) and the editor of The Bay of Pigs Declassified (The New Press) and The Cuban Missile Crisis, 1962. He lives in Maryland.

The Arabs

A Concise History

JOHN MCHUGO

FROM A LEADING SCHOLAR, A SWEEPING, ACCESSIBLE HISTORY OF A KEY REGION THAT PROVIDES VITAL CONTEXT FOR UNDERSTANDING THE CONTEMPORARY MIDDLE EAST

A lucid and highly readable history of the Arab peoples up to the present day. John McHugo has provided a way of understanding this complex and ongoing story that will enlighten all who read it.

—CHARLES TRIPP, AUTHOR OF *THE POWER AND THE PEOPLE*

From Algeria and Libya to Egypt and Syria, the Arab world commands Western headlines, even as its complex politics and cultures elude the grasp of most Western readers and commentators. Perhaps no other region is so closely linked to contemporary U.S. foreign policy, and nowhere else does the unfolding of events have such significant consequences for America.

The Arabs: A Concise History argues that the key to understanding the Arab world today—and in the years ahead—is unlocking its past. John McHugo takes the reader on a journey through the political, social, and intellectual history of the Arabs from the Roman Empire right up to the present day. His sweeping and fluent account describes in vivid detail the mission of the Prophet Muhammad, the expansion of Islam, the origins of Shiism, medieval and modern conflicts, the fall of the Ottoman Empire, the interaction with Western ideas, the struggle to escape foreign domination, the rise of Islamism, and the end of the era of dictators.

McHugo reveals how the Arab world came to have its present form, why change was inevitable, and what choices lie ahead following the Arab Spring. This deeply informed and accessible account is the perfect entry point for anyone seeking to comprehend this vital part of the world.

John McHugo is an Arabist, an international lawyer, and a former academic researcher. He is a director of the Council for Arab-British Understanding, the chair of the Liberal Democrat Friends of Palestine, and a director of the British-Egyptian Society. He lives in London.

Behind the Shock Machine

The Untold Story of the Notorious
Milgram Psychology Experiments

GINA PERRY

THE TRUE STORY—AND REVEALING LEGACY—OF THE CONTROVERSIAL EXPERIMENTS ON OBEDIENCE TO AUTHORITY FIGURES, BASED ON PREVIOUSLY UNPUBLISHED MATERIAL

There may be no studies of the twentieth century more haunting—or more revealing of human beings at their best and worst—than Stanley Milgram’s work. And here, finally, is a book that illuminates Milgram and his research subjects in riveting, compassionate detail.

—DEBORAH BLUM, AUTHOR OF *LOVE AT GOON PARK*

When social psychologist Stanley Milgram invited volunteers to take part in an experiment at Yale in the summer of 1961, none of the participants could have foreseen the worldwide sensation the results would cause. Milgram reported that the volunteers had repeatedly shocked a man they believed to be in severe pain, possibly even dying, because an authority figure had told them to, and he linked this behavior to atrocities perpetrated by ordinary people under the Nazi regime.

In *Behind the Shock Machine*, noted psychologist and author Gina Perry unearths for the first time the full story of this controversial experiment and its startling repercussions. Interviewing the original participants and delving deep into the Yale archives and Milgram’s unpublished files and notebooks, she pieces together a more complex picture of this flawed experiment: volunteers were not as obedient as later claimed; they were subjected to more intense and sustained pressure; some left unaware that the shocks had been faked; and, most significantly, many participants remain haunted by what they had done. Fleshed out with dramatic transcripts of the tests themselves, Perry puts a human face on the statistics and offers a gripping, unforgettable tale of one man’s ambition and an experiment that defined a generation.

Gina Perry is a psychologist and writer. She was a co-producer of the Australian Broadcasting Corporation’s national radio documentary Beyond the Shock Machine. She lives in Melbourne, Australia.

Praise for the Australian edition:

Remarkable. . . . Reading *Behind the Shock Machine* becomes an act of creative disobedience.

—THE AUSTRALIAN

—THOMAS BLASS, AUTHOR OF *THE MAN WHO SHOCKED THE WORLD*

An intriguing tale about science, ethics and storytelling.

—THE AGE

An absorbing account of Stanley Milgram, his subjects, and the continuing quest to understand what it means to be human.

So Rich, So Poor

Why It's So Hard to End Poverty in America

PETER EDELMAN

WITH A NEW INTRODUCTION BY THE AUTHOR

NOW IN PAPERBACK THE BESTSELLING EXPLORATION OF INCREASING POVERTY IN AMERICA TODAY BY THE MAN WHO RESIGNED FROM THE CLINTON ADMINISTRATION TO PROTEST THE TREATMENT OF THE NATION'S POOR

Before we have one more discussion of how America can combat its persistent and growing levels of poverty, could everyone please read this book?

—BARBARA EHRENREICH

If you are a layperson, [*So Rich, So Poor*] is a chance to absorb more than you probably ever realized is at the heart of the fight against poverty; if you are someone who has long been involved in the fight against poverty, I have little doubt you will find new ideas, angles, or inspiration in these pages.

If there is one essential book on the great tragedy of poverty and inequality in America, this is it. Peter Edelman is masterful on the issue. With a real-world grasp of politics and the economy, Edelman makes a brilliantly compelling case for what can and must be done.

—BOB HERBERT

Income disparities in our wealthy nation are now wider than at any point since the Great Depression. The structure of today's economy has stultified wage growth for half of America's workers—with even worse results at the bottom and for people of color—while bestowing billions on those at the top.

In this "accessible and inspiring analysis" (Angela Glover Blackwell), lifelong anti-poverty advocate Peter Edelman assesses how the United States can have such an outsized number of unemployed and working poor despite important policy gains. He delves into what is happening to the people behind the statistics and takes a particular look at young people of color for whom the possibility of productive lives is too often lost on the way to adulthood. In a timely new introduction, Edelman discusses the significance of Obama's reelection—including the rediscovery of the word "poverty"—as well as the continuing attack on the poor from the right.

"Engaging and informative" (William Julius Wilson), "powerful and eloquent" (Wade Henderson), "a national treasure composed by a wise man" (George McGovern), and "a great source for summaries of our country's antipoverty program" (*Publishers Weekly*), *So Rich, So Poor* is crucial reading for anyone who wants to understand the most critical American dilemma of the twenty-first century.

Peter Edelman is a professor at Georgetown University Law Center. A top adviser to Senator Robert F. Kennedy from 1964 to 1968, he went on to fill various roles in President Bill Clinton's administration, from which he famously resigned in protest after Clinton signed the 1996 welfare reform legislation. He lives in Washington, D.C.

The New Black

What Has Changed—and What Has Not—
with Race in America

EDITED BY KENNETH W. MACK AND GUY-URIEL CHARLES

PAPERBACK ORIGINAL A FRESH AND ILLUMINATING LOOK AT TWENTY-FIRST-CENTURY AMERICAN RACE RELATIONS IN ORIGINAL PIECES BY AN ALL-STAR SET OF COMMENTATORS

Americans of all races and ethnicities need to become racially literate, not post-racially blind . . . the conversation on race continues in a new space.

—LANI GUINIER, AWARD-WINNING CONTRIBUTOR TO *THE NEW BLACK*

The election and reelection of Barack Obama ushered in a litany of controversial perspectives about the contemporary state of American race relations. In this incisive volume, some of the country's most celebrated and original thinkers on race—historians, sociologists, writers, scholars, and well-known cultural critics—reexamine the familiar framework of the civil rights movement with an eye to overhauling dramatically our understanding of the politics of race.

Through provocative and insightful essays, *The New Black* challenges contemporary images of black families, offers a contentious critique of the relevance of presidential politics, defies accepted notions of what “black” means individually and collectively, transforms ideas about the real and perceived political power of people of color, and generally attempts to define the new boundaries of debates over race in America.

Bringing a wealth of novel ideas and fresh perspectives to the public discourse, *The New Black* represents a major effort to address both persistent inequalities and the changing landscape of race in the new century.

Kenneth W. Mack is a law professor at Harvard University and the author of *Representing the Race*. He has written for the *Boston Globe*, the *Washington Post*, the *Los Angeles Times*, and the *Baltimore Sun*, and has appeared on *CNN*, *Anderson Cooper 360*, and *PBS's Frontline*. He lives in Newton, Massachusetts. **Guy-Uriel Charles**, a law professor at Duke University and the founding director of the Duke Center on Law, Race, and Politics, is the publisher of the widely read blog *coloredemos*. He lives in Durham, North Carolina.

Howard Zinn

A Life on the Left

MARTIN DUBERMAN

NOW IN PAPERBACK NAMED ONE OF *THE PROGRESSIVE'S* FAVORITE BOOKS OF 2012, A SWEEPING POLITICAL BIOGRAPHY OF "THE PEOPLE'S HISTORIAN" FROM THE AWARD-WINNING BIOGRAPHER AND SCHOLAR

This intelligent book reminds us of the titanic moral struggles in American history and those who engaged with them.

—*THE WASHINGTON POST*

Published to great acclaim in hardcover, Martin Duberman's *Howard Zinn* was described by Michael Kammen in the *Los Angeles Review of Books* as "biography at its best, written by a master of the craft and a man who has lived the activist life and combined that with serious scholarship and innovative teaching." For the millions moved by Howard Zinn's personal example of political engagement, here is a brilliant new biography of perhaps the most widely celebrated popular interpreter of American history and one of America's most admired progressive voices.

"Profoundly moving and perfectly timed" (Blanche Wiesen Cook), "compulsively readable and elegant" (*ForeWord*), "engaging" (*History News Network*), and "thoughtful" (Reason Online), this fascinating account places Zinn at the heart of the signal events of modern American history—from World War II to the McCarthy era, the civil rights and the antiwar movements, and beyond. A bombardier who later renounced war, a son of working-class parents who earned a doctorate at Columbia, a white professor who taught at the historically black Spelman College in Atlanta—the author of *A People's History of the United States* blazed a bold, iconoclastic path through the turbulent second half of the twentieth century. Drawing on the previously closed Zinn archives and illustrated with never-before-published photographs, *Howard Zinn* brings to life this towering figure—the people's historian who himself made history, changing forever how we think about our past.

Martin Duberman is Distinguished Professor Emeritus of History at the CUNY Graduate School. The author of more than twenty books, Duberman has won a Bancroft Prize and been a finalist for both the National Book Award and the Pulitzer Prize. He lives in New York City.

Destined to be a classic.

—MARK KURLANSKY

If you're a fan of Howard Zinn . . . you'll want to pick up this excellent biography.

—*THE PROGRESSIVE*

A masterful biography. . . . With his typically meticulous research, [Duberman] has ferretted out the facts and given us a complete picture, warts and all.

(Hardcover edition: 978-1-59558-628-5)

This vivid and insightful volume provides an essential corrective, offering readers U.S. military history from the bottom up.

—ANDREW J. BACEVICH, AUTHOR OF *WASHINGTON RULES, THE NEW AMERICAN MILITARISM, THE LIMITS OF POWER, AND AMERICAN EMPIRE*

Military service can shatter or give meaning to lives—it is rarely a neutral encounter—and it has resulted in a rich outpouring of personal testimony from the men and women who have literally placed their lives on the line. "A 'real' love letter to our military [that] will prove enlightening, even galvanizing" (*Dissent*), *A People's History of the U.S. Military* tells the captivating narratives of common soldiers, sampled from over three centuries of letters, diaries, and memoirs as well as audio recordings, films, and blogs. The often dramatic, sometimes very raw, and always richly textured first-person accounts collected in this book cover a wide range of perspectives, from ardent patriots to disillusioned cynics, barely literate farm boys to urbane college graduates, scions of founding families to recent immigrants, and women disguising themselves as men in order to serve their country to African Americans fighting for their freedom through military service.

Praised as "compact and complete" (*Booklist*), "an excellent educational tool" (*Publishers Weekly*), and "a useful, unsettling, bottom-up history of America's wars that emphasizes the soldiers' mistreatment, suffering, and injustice" (*Kirkus Reviews*), *A People's History of the U.S. Military* has already become a major new touchstone for our understanding of American military service.

Michael A. Bellesiles teaches history at Central Connecticut State University. He is the author of numerous books, including *1877 (The New Press)* and *Arming America*. He lives in Connecticut.

Hearts and Minds

A People's History of Counterinsurgency

EDITED BY HANNAH GURMAN

A NEW PRESS PEOPLE'S HISTORY
HOWARD ZINN, SERIES EDITOR

PAPERBACK ORIGINAL FROM MALAYA AND VIETNAM TO IRAQ AND AFGHANISTAN, LEADING SCHOLARS AND JOURNALISTS UNRAVEL THE MYTH AND CHALLENGE THE EFFICACY OF COUNTERINSURGENCY

Counterinsurgency is a tactical phoenix, dying only to rise again, ever-ready to win hearts and minds for the American empire. . . . This essential volume makes it possible to understand the past and prepare for the next time the siren song of counterinsurgency is sung.

—MARILYN YOUNG, PROFESSOR OF HISTORY, NEW YORK UNIVERSITY

Since 2006, when the Army published its new field manual on counterinsurgency (or the battle for “hearts and minds”), this guiding doctrine of the U.S. military establishment continues to command broad support from liberals and conservatives alike.

The first book of its kind, *Hearts and Minds* retells the history of counterinsurgency from the perspective of the populations whose hearts and minds have been fought over since the end of World War II. With contributions from economists, anthropologists, social historians, and journalists, the book examines key examples of counterinsurgency campaigns in Malaya, the Philippines, Vietnam, El Salvador, Iraq, and Afghanistan—detailing not only the real sources of discontent behind the insurgencies but also the negative impact of supposedly benevolent counterinsurgency programs on the everyday lives of the people in these regions. A wealth of primary sources and gripping documentary photographs give readers a rare glimpse into the experiences of the many civilians—children, mothers, farmers, workers—caught in the conflicts. A historical primer in its own right, *Hearts and Minds* will also be a key resource for anyone engaged in the vital contemporary debates over U.S. military policy.

Hannah Gurman is an assistant professor at New York University's Gallatin School of Individualized Study. She writes on the politics, economics, and culture of U.S. diplomacy and military conflict for Salon, the Huffington Post, and Foreign Policy in Focus, among other publications. She is the author of *The Dissent Papers: The Voices of Diplomats in the Cold War and Beyond*. She lives in New York City.

The Perils of Our Growing Inequality

EDITED BY DAVID CAY JOHNSTON

OVER THIRTY LEADING ECONOMISTS, JOURNALISTS, AND SCHOLARS EXPLORE THE MOST URGENT ISSUE OF OUR TIMES: THE UPWARD REDISTRIBUTION OF WEALTH AND INCOME IN AMERICA

In a democracy, the civics textbooks tell us, people come together to discuss, debate, and decide solutions to the common problems they face. But this democratic deliberation only works effectively when most people have the same problems in common. In deeply unequal societies, they don't.

—SAM PIZZIGATTI, *TOO MUCH*

The issue of inequality has irrefutably returned to the fore, riding on the anger against Wall Street following the 2008 financial crisis and the concentration of economic and political power in the hands of the super-rich. The Occupy movement made the plight of the 99 percent an indelible part of the public consciousness, and concerns about inequality were a decisive factor in the 2012 presidential elections.

How bad is it? According to Pulitzer Prize-winning journalist David Cay Johnston, most Americans, in inflation-adjusted terms, are now back to the average income of 1966. Shockingly, from 2009 to 2011, the top 1 percent got 121 percent of the income gains while the bottom 99 percent saw their income fall. Yet in this most unequal of developed nations, every aspect of inequality remains hotly contested and poorly understood.

Divided collects the writings of leading scholars, activists, and journalists to provide an illuminating, multifaceted look at inequality in America, exploring its devastating implications in areas as diverse as education, justice, health care, social mobility, and political representation. Provocative and eminently readable, here is an essential resource for anyone who cares about the future of America—and compelling evidence that inequality can be ignored only at the nation's peril.

David Cay Johnston is an investigative journalist and the winner of a 2001 Pulitzer Prize for uncovering loopholes and inequities in the U.S. tax code. He is the president of *Investigative Reporters & Editors* and the author of the bestselling trilogy *Perfectly Legal*, *Free Lunch*, and *The Fine Print*. He lives in Rochester, New York.

Frances Stonor Saunders has almost single-handedly started off a branch of sub-history: the Cultural Cold War. . . . An extraordinarily good book, and I recommend it to anyone.

—IAN MCEWAN

During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not.

Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the *New York Times*, *The Cultural Cold War* presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home. This "impressively detailed" (*Kirkus Reviews*) book draws together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War.

Widely reviewed upon its original publication in 2000, awarded the Royal Historical Society's Gladstone Memorial Prize, and translated into ten languages, the book is "a real contribution to popular understanding of the postwar period" (*The Wall Street Journal*). This edition includes a new preface by the author recalling the complexity of writing the book and its impact on publication.

Frances Stonor Saunders is the author of *The Devil's Broker* and *The Woman Who Shot Mussolini*. She has worked as the city editor of the *New Statesman*; writes and presents for BBC radio; and has written for *Areté*, *The Guardian*, *Lapham's Quarterly*, and the *Los Angeles Times*. She lives in London.

On Anarchism

NOAM CHOMSKY

PAPERBACK ORIGINAL THE ESSENTIAL PRIMER TO THE POLITICAL THEORY OF THE THINKER THE *NEW YORK TIMES* DEEMED "ARGUABLY THE MOST IMPORTANT INTELLECTUAL ALIVE"

The essence of anarchism [is] the conviction that the burden of proof has to be placed on authority and that it should be dismantled if that burden cannot be met.

—NOAM CHOMSKY

Radical linguist, philosopher, and activist Noam Chomsky is one of the world's foremost intellectuals. Known for his brilliant evisceration of American foreign policy, state capitalism, and the mainstream media, he remains a formidable and unapologetic critic of established authority.

On Anarchism sheds a much-needed light on the foundations of Chomsky's thought, specifically his constant questioning of the legitimacy of entrenched power. The book gathers his essays and interviews to provide a short, accessible introduction to his distinctively optimistic brand of anarchism. Chomsky eloquently refutes the notion of anarchism as a fixed idea, suggesting that it is part of a living, evolving tradition, and he disputes the traditional fault lines between anarchism and socialism, emphasizing the power of collective, rather than individualist, action.

Including a revealing new interview with Chomsky by well-known writer and blogger Nathan Schneider that assesses Chomsky's writings on anarchism to date, this is a book that is sure to challenge, provoke, and inspire. Profoundly relevant to our times, *On Anarchism* is a touchstone for political activists and anyone interested in deepening their understanding of anarchism and the man dubbed the "nation's conscience."

Noam Chomsky is Institute Professor emeritus of linguistics at MIT and the author of numerous books including *Towards A New Cold War*, *The Chomsky-Foucault Debate*, *On Language*, and *Objectivity and Liberal Scholarship* (all available from *The New Press*). He lives in Cambridge, Massachusetts. **Nathan Schneider** writes for *The Nation* and is an editor of the blogs *Waging Nonviolence* and *Killing the Buddha*. He lives in New York City.

Killing Machine

The American Presidency in the Age of Drone Warfare

LLOYD C. GARDNER

FROM THE "DEVASTATINGLY EFFECTIVE" (ANDREW BACEVICH) CHRONICLER OF AMERICAN FOREIGN POLICY, A SCATHING NEW ASSESSMENT OF THE AMERICAN PRESIDENCY AND U.S. GLOBAL POWER

Thomas E. Donilon, the national security advisor, remarked that what surprised him the most about Obama in office was: "He's a president who is quite comfortable with the use of force on behalf of the United States."

—FROM *KILLING MACHINE*

With Obama's election to the presidency in 2008, many believed the United States had entered a new era: Obama came into office with high expectations that he would end the war in Iraq and initiate a new foreign policy that would reestablish American values and the United States' leadership role in the world.

In this shattering new assessment, historian Lloyd C. Gardner argues that, despite cosmetic changes, Obama has simply built on the expanding power base of presidential power that reaches back across decades and through multiple administrations. The new president ended the "enhanced interrogation" policy of the Bush administration but did not abandon the concept of preemption. Obama withdrew from Iraq but has institutionalized drone warfare—including the White House's central role in selecting targets. What has come into view, Gardner argues, is the new face of American presidential power: high-tech, secretive, global, and lethal.

Killing Machine skillfully narrates the drawdown in Iraq, the counterinsurgency warfare in Afghanistan, the rise of the use of drones, and targeted assassinations from al-Awlaki to Bin Laden—drawing from the words of key players in these actions as well as their major public critics. With unparalleled historical perspective, Gardner's book is the new touchstone for understanding not only the Obama administration but the American presidency itself.

Lloyd C. Gardner is the Charles and Mary Beard Professor of History at Rutgers University and the author or editor of more than a dozen books, including *The Long Road to Baghdad* and *Three Kings* (both available from *The New Press*). He lives in Newtown, Pennsylvania.

A People's Art History of the United States

250 Years of Activist Art and Artists
Working in Social Justice Movements

NICOLAS LAMPERT

A NEW PRESS PEOPLE'S HISTORY
HOWARD ZINN, SERIES EDITOR

INSPIRED BY THE PATHBREAKING WORK OF HOWARD ZINN, A BOOK THAT TAKES AMERICAN ART HISTORY OUT OF THE MUSEUM AND INTO THE STREETS

When artists join social movements, they become agitators in the best sense of the word, and their art becomes less about the individual and more about the common vision and aspirations of many. Their art challenges power and becomes part of a culture of resistance.

—FROM *A PEOPLE'S ART HISTORY OF THE UNITED STATES*

Most people outside of the art world view art as something that is foreign to their experiences and everyday lives. *A People's Art History of the United States* places art history squarely in the rough-and-tumble of politics, social struggles, and the fight for justice from the colonial era through the present day.

Author and radical artist Nicolas Lampert combines historical sweep with detailed examinations of individual artists and works in a politically charged narrative that spans the conquest of the Americas, the American Revolution, slavery and abolition, western expansion, the suffragette movement and feminism, civil rights movements, environmental movements, LGBT movements, antiglobalization movements, contemporary antiwar movements, and beyond.

A People's Art History of the United States introduces us to key works of American radical art alongside dramatic retellings of the histories that inspired them. Stylishly illustrated with over two hundred images, this book is nothing less than an alternative education for anyone interested in the powerful role that art plays in our society.

Nicolas Lampert is a Milwaukee-based interdisciplinary artist and author whose work focuses on themes of social justice and ecology. His artwork is in the permanent collections of the Museum of Modern Art and the Milwaukee Art Museum, among others. Collectively, he works with the Justseeds Artists' Cooperative. Lampert is a full-time faculty member at the University of Wisconsin-Milwaukee.

(Hardcover edition: 978-1-59558-784-8)

A passionate book that situates "Indian America" within its own diversified history and alliances in the United States, within the complex histories of national liberation and Hindu nationalism in India, as well as within the spectrum of struggles in the United States.

—GAYATRI CHAKRAVORTY SPIVAK, COLUMBIA UNIVERSITY

Within hours of the attacks on the World Trade Center, misdirected assaults on Sikhs and other South Asians flared in communities across the nation, serving as harbingers of a more suspicious, less discerning, and increasingly fearful worldview that would drastically change ideas of belonging and acceptance in America.

Weaving together distinct strands of recent South Asian immigration to the United States, *Uncle Swami* examines a diverse and dynamic people whose identities are all too often lumped together, glossed over, or simply misunderstood. Vijay Prashad confronts the experience of migration across an expanse of generations and class divisions, from the birth of political activism among second-generation immigrants and the meteoric rise of South Asian American politicians in Republican circles to migrant workers at the mercy of the vicissitudes of the American free market.

Described as "eye-opening" (*Kirkus Reviews*), "bound to spark discussion" (*Booklist*), and "required reading for anyone who wants to understand race, assimilation, and patriotism" (*The Boston Globe*), *Uncle Swami* restores a diasporic community to its full-fledged complexity beyond both model minorities and the specters of terrorism.

Vijay Prashad is the George and Martha Kellner Chair in South Asian History at Trinity College in Hartford, Connecticut. He is the author of *The Karma of Brown Folk* and *The Darker Nations* (*The New Press*), which was chosen as a best nonfiction book of the year by the Asian American Writers' Workshop and won the Muzaffar Ahmad Book Prize. He lives in Northampton, Massachusetts.

Black Stats

African Americans by the Numbers

MONIQUE W. MORRIS

PAPERBACK ORIGINAL AN ESSENTIAL HANDBOOK OF EYE-OPENING—AND FREQUENTLY MYTH-BUSTING—FACTS AND FIGURES ABOUT THE REAL LIVES OF AFRICAN AMERICANS TODAY

As things are, our opinions upon the Negro are more matters of faith than of knowledge.

—W.E.B. DU BOIS, "THE STUDY OF THE NEGRO PROBLEMS" (1898)

Amid the widespread spin and skewed analysis that is commonplace to media and politics alike, the need for less filtered information and more raw facts seems more pressing than ever. *Black Stats*, a compact and useful guide, skips over the assumptions, suppositions, and hypotheses about trends and patterns in our society and offers up-to-date figures on black life in the United States today.

Author and advocate Monique W. Morris has compiled statistics from a broad spectrum of telling categories that illustrate the quality of life and the possibility of (and barriers to) advancement for a group at the heart of American society. With fascinating information on everything from disease trends, incarceration rates, and lending practices to voting habits, green jobs, and educational achievement, the material in this book will enrich and inform a range of public debates while challenging commonly held yet often misguided perceptions.

Black Stats simultaneously highlights measures of incredible progress, conveys the disparate impacts of social policies and practices, and surprises with revelations that span subjects including the entertainment industry, military service, and marriage trends. A critical tool for advocates, educators, and policy makers, *Black Stats* is an affordable guidebook for anyone seeking to understand the complex state of our nation.

Monique W. Morris is a Soros Justice Fellow and consultant to the nation's leading civil rights and social justice organizations. She is a former Vice President for Economic Programs, Advocacy and Research for the NAACP. A lecturer at St. Mary's College of California, she is the author of the novel *Too Beautiful for Words*. Morris lives in the Bay Area with her husband and two daughters.

1914

A Novel

JEAN ECHENOZ

TRANSLATED FROM THE FRENCH BY LINDA COVERDALE

PAPERBACK ORIGINAL THE PRIX GONCOURT WINNER TURNS HIS STYLISTIC BRILLIANCE TO THE HORRORS OF WORLD WAR I IN A NOVEL PUBLISHED ON THE WAR'S ONE HUNDREDTH ANNIVERSARY

Dazzling, meticulous, and somber.

—TÉLÉRAMA

Jean Echenoz, considered by many to be the most distinguished and versatile living French novelist, turns his attention to the deathtrap of World War I in *1914*. In it, five Frenchmen go off to war, two of them leaving behind a young woman who longs for their return. But the main character in this brilliant novel is the Great War itself. Echenoz, whose work has been compared to that of writers as diverse as Joseph Conrad and Laurence Sterne, leads us gently from a balmy summer day deep into the relentless—and, one hundred years later, still unthinkable—carnage of trench warfare.

With the delicacy of a miniaturist and with an irony that is both witty and clear-eyed, Echenoz offers us an intimate epic: in the panorama of a clear blue sky, a biplane spirals suddenly into the ground; a piece of shrapnel shears the top off a man's head as if it were a soft-boiled egg; we dawdle dreamily in a spring-scented clearing with a lonely shell-shocked soldier strolling innocently toward a firing squad ready to shoot him for desertion.

Ultimately, the grace notes of humanity in *1914* rise above the terrors of war in this beautifully crafted tale that Echenoz tells with discretion, precision, and love.

Jean Echenoz won France's prestigious Prix Goncourt for *I'm Gone* (*The New Press*). He is the author of six other novels available in English and the winner of numerous literary prizes, among them the Prix Médicis and the European Literature Jeopardy Prize. He lives in Paris. **Linda Coverdale's** most recent translation for *The New Press* was Jean Echenoz's *Lightning*. She was the recipient of the French-American Foundation's 2008 Translation Prize for her translation of Echenoz's *Ravel* (*The New Press*). She lives in Brooklyn.

Praise for the French edition of *1914*:

This new novel from Jean Echenoz concentrates and synthesizes the quintessence of his writing.

Blue Future

Protecting Water for People and the Planet Forever

MAUDE BARLOW

FROM THE INTERNATIONALLY ACCLAIMED ENVIRONMENTALIST, A POWERFUL, PENETRATING, AND TIMELY LOOK AT THE LOOMING GLOBAL WATER CRISIS—AND WHAT WE CAN DO TO PREVENT IT

The coming grab for the planet's dwindling resources is the defining issue of our time. Water is not a resource put here for our convenience, pleasure and profit but the source of all life. It is urgent that we clarify the values and principles needed to protect the planet's fresh water.

—FROM *BLUE FUTURE*

In her bestselling books *Blue Gold* and *Blue Covenant*, world-renowned water activist Maude Barlow exposed the battle for ownership of our dwindling water supply and the emergence of an international, grassroots-led movement to reclaim water as a public good. Since then, the United Nations has recognized access to water as a basic human right—but there is still much work to be done to stem this growing crisis.

In this major new book, Barlow draws on her extensive experience and insight to lay out a set of key principles that show the way forward to what she calls a “water-secure and water-just world.” Not only does she reveal the powerful players even now impeding the recognition of the human right to water, she argues that water must not become a commodity to be bought and sold on the open market. Focusing on solutions, she includes stories of struggle and resistance from marginalized communities, as well as government policies that work for both people and the planet.

At a time when climate change has moved to the top of the national agenda and when the stage is being set for unprecedented drought, mass starvation, and the migration of millions of refugees in search of water, *Blue Future* is an urgent call to preserve our most valuable resource for generations to come.

A recipient of Sweden's Right Livelihood Award and a Lannan Cultural Freedom Fellowship, Maude Barlow is head of the Council of Canadians and founder of the Blue Planet Project. The author of sixteen books, including Blue Gold and Blue Covenant (both available from The New Press), she is on the boards of Food and Water Watch and the International Forum on Globalization. She lives in Ottawa.

At a tense time of toxic nationalism in Asia, this book is a timely reminder of the uses and abuses of history.

—THE ECONOMIST

Historian John W. Dower's celebrated investigations into modern Japanese history, World War II, and U.S.-Japanese relations have earned him critical accolades and numerous honors, including the Pulitzer Prize, the National Book Award, and the Bancroft Prize. Now Dower returns to the major themes of his groundbreaking work, examining American and Japanese perceptions of key moments in their shared history.

Both provocative and probing, *Ways of Forgetting, Ways of Remembering* delves into a range of subjects, including the complex role of racism on both sides of the Pacific War, the sophistication of Japanese wartime propaganda, the ways in which the nuclear bombing of Hiroshima and Nagasaki is remembered in Japan, and the story of how the postwar study of Japan in the United States and the West was influenced by Cold War politics.

Ways of Forgetting, Ways of Remembering offers urgent insights by one of our greatest interpreters of the past into how citizens of democracy should deal with their history and, as Dower writes, "the need to constantly ask what is not being asked."

John W. Dower is Professor Emeritus of History at Massachusetts Institute of Technology. He is the author of several books, including *War Without Mercy*, *Cultures of War*, and *Embracing Defeat*, which was the recipient of numerous awards, including the Pulitzer Prize, the National Book Award, the Bancroft Prize, and the Fairbank Prize. It's been over thirty years since a reactor in the United States melted down. Some believe this indicates that all safety problems have been addressed and no challenges remain. That's not "mission accomplished," it's just plain luck. The Japanese thought the same thing until their luck ran out.

—FROM *FUKUSHIMA*

On March 11, 2011, an earthquake large enough to knock the earth from its axis sent a massive tsunami speeding toward the Japanese coast and the aging and vulnerable Fukushima Daiichi nuclear power reactors. Over the following weeks, the world watched in horror as a natural disaster became a man-made catastrophe: fail-safes failed, cooling systems shut down, nuclear rods melted.

In the first definitive account of the Fukushima disaster, two leading experts from the Union of Concerned Scientists, David Lochbaum and Edwin Lyman, team up with journalist Susan Q. Stranahan, the lead reporter of the *Philadelphia Inquirer's* Pulitzer Prize-winning coverage of the Three Mile Island accident, to tell this harrowing story. *Fukushima* combines a fast-paced, riveting account of the tsunami and the nuclear emergency it created with an explanation of the science and technology behind the meltdown as it unfolded in real time. Bolstered by photographs, explanatory diagrams, and a comprehensive glossary, the narrative also extends to other severe nuclear accidents to address both the terrifying question of whether it could happen here and how such a crisis can be averted.

David Lochbaum is the head of the Union of Concerned Scientists' Nuclear Safety Project and author of *Nuclear Waste Disposal Crisis*. He lives in Tennessee. **Edwin Lyman** is a senior scientist in the Global Security Program of the Union of Concerned Scientists. He lives in Washington, D.C. **Susan Q. Stranahan** is the author of *Susquehanna: River of Dreams*. She lives in Maine. **The Union of Concerned Scientists** is the leading science-based nonprofit working for a healthy environment and a safer world.

(Hardcover edition: 978-1-59558-467-0)

Once again at his most bold and brilliant. . . . Rose is a rare treasure in this dreary moment of debate along the dismal flatlands of education discourse. He brings us to the mountaintops.

—JONATHAN KOZOL

Why School? is a little book driven by big questions. What does it mean to be educated? What is intelligence? How should we think about intelligence, education, and opportunity in an open society? Drawing on forty years of teaching and research and "a profound understanding of the opportunities, both intellectual and economic, that come from education" (*Booklist*), award-winning author Mike Rose reflects on these and other questions related to public schooling in America. He answers them in beautifully written chapters that are both rich in detail and informed by an extensive knowledge of history, the psychology of learning, and the politics of education.

This paperback edition includes three new chapters showing how cognitive science actually narrows our understanding of learning, how to increase college graduation rates, and how to value the teaching of basic skills. An updated introduction by Rose, who has been hailed as "a superb writer and an even better storyteller" (TLN Teachers Network), reflects on recent developments in school reform. Lauded as "a beautifully written work of literary nonfiction" (*The Christian Science Monitor*) and called "stunning" by the *New Educator Journal*, *Why School?* offers an eloquent call for a bountiful democratic vision of the purpose of schooling.

Mike Rose, a professor at the UCLA Graduate School of Education and Information Studies, is the author of numerous books, including *The Mind at Work*, *Possible Lives*, and *Back to School* (The New Press). Among his many awards are a Guggenheim Fellowship, the Grawemeyer Award in Education, and the Commonwealth Club of California Award for Literary Excellence in Nonfiction. He lives in Santa Monica.

Our Daily Poison

From Pesticides to Packaging, How Chemicals Have Contaminated the Food Chain and Made Us Sick

MARIE-MONIQUE ROBIN

FROM THE ACCLAIMED AUTHOR OF *THE WORLD ACCORDING TO MONSANTO*, A SHOCKING ACCOUNT OF THE DANGEROUS CHEMICAL COMPOUNDS THAT HAVE INFILTRATED OUR FOOD CHAIN

Terrifying . . . [Robin] conducts her investigation with an Olympian calm and reveals deep structural problems.

—L'EXPRESS

The past thirty years have seen a dramatic increase in cancer rates, neurodegenerative and reproductive disorders, and diabetes, particularly in developed countries. Since the end of World War II, approximately one hundred thousand synthetic chemical molecules have invaded our environment—and our food chain. In *Our Daily Poison*, award-winning journalist and documentary filmmaker Marie-Monique Robin investigates the links between these two trends, revealing how a toxic mix of corporate interests and public ignorance about invisible poisons may be costing us our lives.

The result of a rigorous two-year-long investigation that took Robin across three continents, *Our Daily Poison* documents the shocking array of chemicals in our everyday lives and their effects on our bodies over time. Moving beyond the substances, Robin also dissects the byzantine, entirely inadequate evaluation and approval systems for chemical products, highlighting the fallacy of the “acceptable daily intake” and other regulatory standards for harmful substances.

Our Daily Poison also exposes the chemical industry’s lobbying efforts to keep highly toxic products on the market. Drawing on scientific studies, the testimony of international regulatory agencies, and a range of in-depth interviews—from farm workers suffering from acute chronic poisoning to FDA and WHO representatives and to the scientists who develop these compounds—Robin makes a gripping and compelling case for outrage and action.

Marie-Monique Robin is an award-winning French journalist and filmmaker. She received the 1995 Albert-Londres Prize, awarded to investigative journalists in France. She is the director and producer of over thirty documentaries and investigative reports filmed in Latin America, Africa, Europe, and Asia. She lives outside Paris.

Praise for the French edition of *Our Daily Poison*:

Its great strength lies in Robin’s thoroughness and precision, the shocking interplay of data and figures.

—LES INROCKUPTIBLES

Robin tenaciously dissects the system by which our meals have become fatal.

—TÉLÉOBS

Praise for *The World According to Monsanto*:

A truly eye-opening view of how American business-as-usual really works.

A New Leaf

The End of Cannabis Prohibition

ALYSON MARTIN AND NUSHIN RASHIDIAN

PAPERBACK ORIGINAL THE MOST VIVID AND COMPREHENSIVE ACCOUNT YET OF THE ROCKY ROAD TO CANNABIS LEGALIZATION—AND WHERE WE ARE HEADED NEXT—BY TWO AWARD-WINNING JOURNALISTS

With great clarity, *A New Leaf* offers a sweeping and important view of today's changing attitudes toward marijuana.

—AMY WILENTZ, AUTHOR OF *THE RAINY SEASON* AND *FAREWELL*, *FRED VOODOO*

In November 2012, voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use—a first in the United States and the world. Medical cannabis is now legal in eighteen states and Washington, D.C., and more than one million Americans have turned to it in place of conventional pharmaceuticals. Yet the federal government refuses to acknowledge these broader societal shifts and continues to raid and arrest: 49.5 percent of all drug-related arrests involve the sale, manufacture, or possession of cannabis.

In the first book to explore the new landscape of cannabis in the United States, investigative journalists Alyson Martin and Nushin Rashidian present a deeply researched, insightful story of how recent developments tie into cannabis's complex history and thorny politics. Reporting from nearly every state with a medical cannabis law, Martin and Rashidian enliven their book with in-depth interviews with patients, growers, doctors, entrepreneurs, politicians, activists, and regulators. They whisk readers from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon's "World Famous Cannabis Café." They present an expert analysis of how recent milestones toward legalization will affect the war on drugs both domestically and internationally. The result is an unprecedented and lucid account of how legalization is manifesting itself in the lives of millions.

A New Leaf offers an essential guide for anyone who wants to understand the far-ranging implications of this rapidly changing drug landscape.

Alyson Martin is an award-winning journalist whose work has appeared in the New York Times, The Nation, and the Albany Times Union. *Nushin Rashidian* is an award-winning journalist whose work has appeared in the New York Times, The Nation, and Tehran Bureau. *This is Martin and Rashidian's first book. They live in New York City.*

- **Percentage of Americans who support legalization for medical use: 70%**
- **Percentage of Americans who support legalization for recreational use: 56%**
- **Number of people arrested for a marijuana law violation in 2011: 757,969**
- **Percentage of those charged with marijuana law violations who were arrested for possession only: 86%**
- **Amount spent annually in the U.S. on the war on drugs: \$51 billion**
- **Percentage of Americans who believe the war on drugs is working: 7%**
- **Estimated annual revenue that California would raise if it taxed and regulated the sale of marijuana: \$1.4 billion**
